

Level 2 Certificate in the Principles of Cyber Security

Dates: 03/03/2025

Locations: Amberley Road Centre

The purpose of the Level 2 Certificate in Cyber Security is to provide learners with sector awareness. It will do this by introducing the knowledge and understanding in roles and issues relating to Cyber Security. The secondary purpose is to act as a stepping stone that will lead learners into studying Cyber Security at a higher level.

Entry Requirements

This is a Level 2 programme and you will be expected to already hold a Level 1 in Essential Digital Skills, or equivalent.

What topics does the course cover?

Modules include: Introduction to cyber security, understand terminology used in cyber security, understand legal and ethical aspects of cyber security, understand common threats to cyber security, understand methods of maintaining cyber security and working with others in cyber security.

How will I be taught and assessed?

This course is offered as a blended programme where you will receive tuition and direction at set times during the week from your tutor. You will need to be able to access this direct teaching input, engaging with your tutor and peers and have time to practice your skills as homework.

Are there any other costs or equipment I need to get?

There are no costs associated with this course. It is essential that you have regular access to a computer or laptop and reliable internet service to complete this course.

By the end of the course what should I be able to do?

You will consolidate your knowledge of Cyber Security and learn practical skills which can be used to proceed into study at Level 3.

What are the progression opportunities following this course?

You will need 90% attendance and have successfully passed the Level 2 Certificate in Cyber Security Practices to progress onto Level 3 Certificate in Cyber Security Practices starting in Jan 2022.
